COMMUNITY LEADERS SERIES

AS WE SEE IT

**Good work happens in partnership.
Come meet people ready to build with you.**

You've probably felt it. An employee who could thrive with better support. A student whose life outside the classroom shapes what happens inside it. A resident who belongs but isn't sure where to plug in. The best partnerships help everyone find their place.

Hear how Addison Park District and NEDSRA built a partnership rooted in the belief that everyone has value and belongs, and start conversations about what could be built in your own corner of the community.
